

Erik Zoltan Lajko

Motivated and enthusiastic recent college graduate with a Bachelor's degree in Linguistics and a minor in Computer Science is seeking a Junior GenAI Engineer/Designer position. Unique interdisciplinary background in Linguistics and Computer Science supports building applications that process, analyze, and generate human language. Passionate about leveraging technology to improve communication, accessibility, and user experience. Always iterating and improving.

Projects

Agentic Album Classifier (Node.js)

<https://github.com/elajko/Agentic-Album-Classifier>

Developed an agentic image database that utilizes local GenAI APIs to organize images into albums, adapting its classification schema on the fly in response to new images. Minimalist, function-first front-end design.

Redline Auctions USA (HTML + CSS)

<https://www.redlineauctionsusa.com/>

Cooperated with the client and 3rd party services in designing a logo and front-end that felt modern but stylish -- apt for a car auction service. Provided feedback on writing choices to maximize clarity.

Experience

Software/IT Intern (Sept 2024 – Now)

@ LUMAER Cybersecurity Solutions, Rockville MD

Assisted in designing, styling, and maintaining company website content. Collaborated with developers using Git for version control.

Research Assistant (June 2025 – Apr 2026)

@ University of Maryland, College Park MD

Annotated linguistic data collected from field recordings of the Mayan language Tz'utujil (data annotation).

Team Captain/Design Lead (2020)

@ Wilson Hacks (Facebook), Blair Hacks, hackUMBC

Timed, collaborative programming competitions. Expressing artistic and technical creativity in a team development setting.

Education

B.A. in Linguistics (Grammars & Cognition), May 2026

Minor in Computer Science (Cumulative GPA: 3.962)

@ University of Maryland, College Park

Relevant Coursework: Object-Oriented Programming; Computer Systems; Algorithms; Discrete Structures; Artificial Intelligence; Organization of Programming Languages; Software/Network Security and Cryptography

Hungarian Language and Culture Summer Course, Aug 2024

@ University of Debrecen, 3 credit study abroad

Contact

Languages

English
Mandarin Chinese (Elementary)
Hungarian (Intermediate)

Technical Skills

Languages: C, C++, Python, Java, C#, HTML + CSS + Javascript, Lua, Node.js, SQLite, MySQL

Tools: Git/GitHub, VS Code, Copilot, Krita

Other: REST APIs, Responsive Design, Unix CLI, Hugging Face

Relevant Strengths & Skills

Software design, Web design, Debugging, Unit testing, UI/UX, Familiarity with multilingual data + cross-cultural communication

Interests

LLMs, NLP, GenAI, embeddings
Full-stack development
Graphic design
Group hackathons

Certifications

Social & Behavioral Research, CITI Program
Research ethics, regulatory compliance, and risk assessment for human subject research.
